Projects

Web Portfolio

🔗 <https://dayanvr-webportfolio.netlify.app>

This project is a personal, bilingual portfolio website built with **Astro** and **Tailwind CSS**, designed to showcase my background, skills, and projects as a web developer. It features English/Spanish language support, a responsive theme, and modular Astro components.

Game Finder Pro

🔗 <https://game-finder-pro-client.vercel.app>

This project is a full-stack web application that allows users to browse, and explore video games through a modern and responsive interface. The frontend is built with **React 18** and **Tailwind CSS**, while the backend is built with **Express.js**. The site features searchable and paginated game listings, detailed game pages, and shared state management.
